Appointment Details

Date: May 25, 2024
Time: 11:30 AM
Doctor: Dr. Rebecca King, MD

Chief Complaint

Routine follow-up for testicular cancer.

History of Present Illness

Lucas Green is a 34-year-old male diagnosed with Stage IIB testicular cancer in September 2023. Completed 4 cycles of BEP chemotherapy. Currently asymptomatic.

Past Medical History

- None

Medications

- Bleomycin:** 30 units/m² IV on days 1, 8, and 15 of 21-day cycle
- Etoposide:** 100 mg/m² IV on days 1-5 of 21-day cycle
- Cisplatin:** 20 mg/m² IV on days 1-5 of 21-day cycle

Review of Systems

- Constitutional:** No fatigue, weight stable
- Respiratory:** No shortness of breath, no cough
- Cardiovascular:** No chest pain, no palpitations
- Gastrointestinal:** No nausea, no vomiting

Physical Examination

- General:** Appears healthy, no distress
- Vital Signs:** BP 118/75, HR 65, RR 16, Temp 98.4°F

- **Genitourinary:** No masses, no tenderness
- **Chest/Lungs:** Clear to auscultation
- **Cardiovascular:** Regular rhythm, no murmurs

Assessment

- **Stage IIB testicular cancer, in remission**

Plan

1. Continue surveillance with CT scans every 3 months for the next year.
2. Routine tumor marker tests (AFP, HCG) every 3 months.
3. Follow up in 3 months for review of CT and lab results.
